Raebareli, Uttar Pradesh, India

OBJECTIVE

Motivated .NET Developer with hands-on experience in building scalable and secure web applications using C#, ASP.NET, and SQL Server. Proficient in developing RESTful APIs, implementing MVC architecture, and managing relational databases. Strong problem-solving skills and a collaborative mindset, eager to contribute to high-quality software solutions and grow in a dynamic, technology-driven organization.

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, JavaScript, Bootstrap, jQuery, Ajax, Angular (Basics), Razor Pages
- **Backend:** C#, ASP.NET MVC, ASP.NET Core, Web API, ADO.NET
- **Databases:** Microsoft SQL Server
- **Developer Tools & Platforms:** Visual Studio, VS Code, Git, GitHub, Postman
- **Other Skills:** MVC Architecture, RESTful APIs, CRUD Operations, Authentication, Clean Code

EDUCATION

- **Feroze Gandhi Polytechnic, Raebareli** Sept. 2022 – Jul. 2025
Diploma in Information Technology
- **Har Narayan Inter College, Unchahar, Raebareli** April. 2020 – Jul. 2022
Intermediate

EXPERIENCE

- **Techpile Technology Pvt. Ltd.** Aug. 2025 – Present
Apprenticeship Lucknow
 - Developed web application features using C#, ASP.NET MVC, and MVC architecture.
 - Designed and managed relational databases using Microsoft SQL Server.
 - Implemented CRUD operations and dynamic UI functionality using Ajax and jQuery.
 - Integrated ASP.NET applications with SQL Server using ADO.NET for efficient data handling.
 - Developed a College Management System using ASP.NET MVC and SQL Server for managing academic and student records.
 - Followed clean coding practices and standard software development principles during development.

PROJECTS

College Management System (Live Web Application) [Live Demo](#) | [GitHub](#)
Tech Stack: [C#, ASP.NET MVC, ADO .Net, SQL Server, HTML, CSS, Bootstrap, Ajax, jQuery] Feb. 2026

- Developed and deployed a fully functional College Management System on live hosting platform.
- Implemented secure Admin and Student authentication with session-based access control.
- Designed role-based admin dashboard for centralized academic and institutional data management.
- Built complete CRUD modules for Colleges, Courses, Branches, Academic Years, and Students.
- Created dynamic dependent dropdowns using Ajax and jQuery to improve user interaction.
- Integrated ASP.NET MVC with SQL Server using ADO .Net for efficient relational data handling.

Secure CRUD Web API [GitHub](#)
Tech Stack: [C#, ASP.NET Core Web API, Entity Framework / ADO .Net, SQL Server] Jan. 2026

- Designed and developed a secure RESTful Web API for performing CRUD operations.
- Implemented authentication and authorization mechanisms for protected endpoints.
- Integrated SQL Server for persistent data storage with proper validation and error handling.
- Followed layered architecture principles to ensure scalability and maintainability.
- Tested API endpoints using Postman to verify request-response lifecycle.

Blinkit Website UI Replica [Live Demo](#) , [GitHub](#)
Tech Stack: HTML, CSS, JavaScript Oct. 2025

- Built a pixel-perfect Blinkit-inspired UI using HTML, CSS, and JavaScript.
- Designed responsive layout for mobile, tablet, and desktop using media queries.
- Implemented dynamic add-to-cart interaction with quantity controls.
- Used Flexbox and CSS Grid for layout structuring and alignment.
- Maintained consistency in spacing, typography, and color scheme.
